February 6, 2023

Dear Resident Doctors,

Happy Resident Doctors Appreciation Week! Although it was over a decade ago, I remember my residency vividly. It is a time that requires you to dig down deep and persevere through long days and nights, a steep learning curve, a lot of insecurity and anxiety and a lot of unknown. It takes strong individuals to manage the expectations and workload of residency. This week we all celebrate that strength.

Health Sciences Centre's patients benefit so much from all of your hard work and attention to their needs. I personally want to thank you for all you do for the patients that come through our doors and for the teams that care for them. You are all an invaluable part of the HSC family and we appreciate you not only this week, but every single week of the year. Thank you for your curiosity, tenacity and kindness.

I hope you feel celebrated this week. It is well deserved.

Sincerely,

Manon Pelletier MD, CCFP (she/her)
